

Bigelow & Pastrell

Family Dentistry

Dr. Gregory N. Bigelow, D.M.D.
Dr. Peter D. Pastrell, D.M.D.

To Whom it May Concern,

We would like to comment on the service that we have been receiving from the **iSecure** Information Security Company. It has been wonderful to do business with their company! We have been very pleased with their quality of service from the day that we made the decision to let them handle our sensitive documents.

We continue to be impressed by the technology associated with the **iSecure** truck & equipment. It's actually fun to watch our documents being shredded. It's also a relief to know that we are complying with the strict HIPPA laws associated with our dental practice. We no longer have to worry about private patient information falling into the wrong hands.

iSecure has helped to increase our productivity by freeing our employees from the time consuming task of shredding each document in our small & inefficient machine. Now, we just put all of the papers, xrays, etc. into the provided security container & it is promptly picked up as scheduled. They are also very flexible & willing to make extra pick-ups when needed. Gone are our worries of misplaced or mishandled documents.

We would highly recommend **iSecure** to any business that is ready to turn their confidential materials over to a convenient & reliable company. Please feel free to contact us with any questions.
