Attn: Lowell Anderson

Dear Lowell,

We have used your service for almost a year now and are very pleased. I'd like to congratulate you and your staff on your performance. As an accounting firm, it is imperative that our confidential material be managed in a way that we have no concerns about the destruction of the materials we dispose of. Your company has not only provided us with reliable, flexible and friendly service but has also provided a level of comfort by meeting the industry standards for secure recycling. All at a competitive rate!

We look forward to continuing this business relationship.

Sincerely,

Janet Young
Office Manager
